**Reurlet 1-28-71 captioned "COINTELPRO - New Left."**

Bureau feels preparation of leaflets as requested in relet has merit, and you are authorized to duplicate sufficient copies on commercially obtained paper to have posted on various bulletin boards where they might be seen by majority of students at San Diego State College. It is hopeful this action will have desired effect of dissuading would-be new recruits from membership in YSA.

Bureau sees no advantage to be gained from mailing copies of leaflets to YSA members as outlined in relet. Accordingly, this should not be done.

Insure leaflets are reproduced in such a manner that Bureau is fully protected as source of leaflets. Promptly report any information obtained indicating effect produced by appearance of leaflets.

**NOTE:**

As result of recent decision by YSA to admit homo-sexual members, San Diego has prepared two leaflets which clearly invite "gay set" (homosexuals) to membership in YSA and provide first names and first initial of last names, and telephone numbers of YSA activists who can be contacted for further information. San Diego requested authority to mail, through YSA P.O. Box, copies of leaflets to the six YSA activists involved. San Diego also requested authority to have copies of leaflets posted on various bulletin boards on campus of San Diego State College. Posting of the leaflets on campus to dissuade new membership in YSA has merit and being approved. Idea of mailing leaflets to specific YSA members appears to serve no useful purpose and authority not being granted. Leaflets will not be traceable to Bureau.

NEW LEFT

Enclosed for the Bureau are two copies of proposed leaflets.

The Young Socialist Alliance (YSA) in San Diego has a chapter at San Diego State College consisting of approximately 15 members more or less at any one time. This group holds meetings for themselves and the Socialist Workers Party (SWP) on campus.

On 1/6/71, a letter from [REDACTED] of the National Office of the SWP, to all members of SWP and YSA entitled "Report on Membership Policy Given to Policy Committee of SWP" [REDACTED] refers to a change of policy allowing homosexuals to be considered for membership in SWP and YSA. The report specified that they should be taken into the party and membership divided on an individual basis.

San Diego received a copy of this letter to all members from [REDACTED] on 1/15/71.

It is noted that [REDACTED] a member of YSA in San Diego, was recently arrested on a felony charge for committing an abnormal act with a Negro male in a public place.

In view of the letter submitted to all members and this arrest of a YSA member for committing this felony, which will possibly receive considerable publicity at the time of her trial, San Diego feels that at this time some counterintelligence action might be warranted against YSA.

Bureau authority is requested to mail copies of the two enclosed leaflets to YSA members to [REDACTED], [REDACTED], [REDACTED], and [REDACTED], who are YSA members. The leaflets will be mailed to them in care of YSA, Post Office Box in San Diego. Inasmuch as the letter described above went to all members of the YSA and because the San Diego Office will not use the home addresses of these individuals, there is no chance that this counterintelligence activity will in any way compromise the identity of [REDACTED].

Bureau authority is also requested to have copies of these leaflets posted on various bulletin boards where they will be seen by a maximum number of individuals who might otherwise become involved with YSA.

San Diego will reproduce these leaflets in such a way that they can in no way be traced to the FBI and Bureau is assured that no embarrassment to the Bureau will result from this counterintelligence activity.

Re San Diego letter to the Bureau 7/30/70.

A. POTENTIAL COUNTERINTELLIGENCE ACTION

The People's Commune housing a group of individuals who print the "San Diego Street Journal", an underground type newspaper in San Diego, continues to be an appropriate target for counterintelligence operation. The Bureau has been previously advised that the commune was located in the 3200 block of Second and Third Avenues in San Diego and that they had moved to 2412 J Street, San Diego. They have now moved out of 2412 J Street and are living at various locations.

*John*  
*He*  
*SD*

The Young Socialist Alliance (YSA) at San Diego State College (SDSC) in San Diego is allied with the Student Mobilization Committee (SMC) in planning anti-war and anti-establishment activities. This group appears to be in the process of becoming more militant and there have been some indications that they might be gathering, or attempting to gather, weapons. These two groups have good potential for counterintelligence operation.

The Students for a Democratic Society (SDS) in San Diego remain as a potential for counterintelligence action as it appears that certain elements in this group are attempting to start SDS organizations in junior colleges in San Diego. This group will be carefully watched for opportunities to interfere with this activity.

The Movement for a Democratic Military (MDM) at 519 Freeman Street, Oceanside, California, is also a radical anti-establishment organization which continues to be a target for potential counterintelligence action. It is noted that PATRICIA SUMI, one of the organizers of MDM, recently travelled to North Vietnam and Moscow in the company of ELDRIDGE CLEAVER.

B. PENDING COUNTERINTELLIGENCE ACTION

At the present time [REDACTED] is becoming more closely associated with individual members of the SDS group at UCSD in San Diego in an effort to tone down and modify their activities more in line with that of the old Communist Party which has seldom been involved in activities such as bombings and violence.

The San Diego Office continues to furnish the San Diego Police Department information at any time such information can result in the arrest of members of the various groups listed above where they become involved in illegal activities. Through close cooperation with local law enforcement intelligence agencies, local law enforcement is kept advised of planned activities of these groups and many acts contemplated by them can thus be stopped. For example, during a recent demonstration in San Diego, radical members had planned to take some action against flags located along the route of their march. As the result of intelligence information furnished to local law enforcement agencies, officers were stationed in such locations that they could observe and take action should any of the flags be defaced. As a result the radicals were completely frustrated stating that they could not plan anything without law enforcement officers knowing in advance.

Violent counterintelligence action such as breaking windows in homes and offices has been taken against radical groups in San Diego for some time. For example, the People's Commune at 2412 J Street, recently vacated by them, has nearly every window broken. As a result of this type of activities these groups have a difficult time renting space for offices or for communal type living. In view of this counterintelligence activity being taken against these groups by unidentified individuals, the San Diego Office is not planning this type of counterintelligence at the present time, but continues to watch for opportunities to frustrate these groups through the passing on of intelligence information and through possible means which might interfere with their financial situation which at the present time is at a low ebb.

Any specific counterintelligence action to be taken by the San Diego Office will be submitted to the Bureau for approval prior to taking such action.

C. TANGIBLE RESULTS

At the present time in San Diego it appears that groups are having a difficult time rallying support for their activities by any except hard core radical elements. A "stop the pig" demonstration on 10/3/70 directed against the San Diego Police Department was only able to get slightly more than 200 persons. It is expected that demonstrations in the future will rally more persons due to the backing received from students now assembled at the various colleges. The People's Commune has been forced to vacate their communal type residence through counterintelligence action which has made it difficult for them to satisfy their landlords. YSA has been held to a small group of individuals at SDSC. The SMC is having financial difficulties as are the other groups, and it appears that action taken against these various radical groups in San Diego by law enforcement and other unidentified persons has kept these groups in a state of confusion and financial disaster.

San Diego will continue to be alert for instances where counterintelligence action could possibly aid in the destruction of these new left groups.

## A. POTENTIAL COUNTERINTELLIGENCE ACTION

The Students of the Independent Left (SIL) is no longer active at colleges in San Diego. Two of the leaders of this group have become involved in the publication of a weekly underground newspaper called The San Diego Street Journal. They are [REDACTED] and [REDACTED].

The SDS in San Diego has been temporarily at a low ebb in membership and activity. These groups, including the Weatherman faction, are presently attempting to stage a comeback and become organized in the San Diego area.

A chapter of the Young Socialist Alliance (YSA) exists at San Diego State College (SDSC).

A group called the Student Mobilization Committee has been active at SDSC in anti-war and Vietnam moratorium activities.

New groups such as the Movement for a Democratic Military (MDM), the Green Machine, and people associated with underground type newspapers published for the military service such as Duck Power and Attitude Check have recently become active in San Diego.

EX-117 REC 27. 2 FEB 9 1970

F-73  
MAY 4 1970

NAT. INT. SEC.

Persons involved in resistance and anti-draft type activities continue to operate in the San Diego area.

All of the above organizations represent a potential for counterintelligence action at this time.

B. PENDING COUNTERINTELLIGENCE ACTION

The commune publishing the San Diego Street Journal and persons publishing another underground newspaper called the San Diego Door to Liberation have been subjected to considerable harassment during the past six months. This includes breaking into both of their offices with considerable destruction of machines and equipment, items being thrown or shot through windows and doors of offices of the newspapers and the commune itself, the theft of 2500 copies of the San Diego Street Journal, the burning of an automobile parked in front of the commune, and many other harassing incidents such as threatening telephone calls, theft of records, etcetera. As a result of this action, the San Diego Street Journal and The Door have published a large number of articles which were critical of the San Diego Police Department for not solving crimes against these groups and members of the groups have contacted the California Department of Justice and other law enforcement agencies in an attempt to force the police department to solve these harassing incidents. In view of these incidents, it does not appear that counterintelligence action against this particular group at this time would be wise due to the possibility of becoming involved with other incidents that have taken place.

The SDS, including the Weatherman faction are attempting to become organized in the San Diego area but at this time are ineffectual and are causing little or no trouble in the community. The San Diego Office is attempting to heavily infiltrate these groups with informants at the start of their organizing activity and should they progress to the point where they begin to assert their influence on schools and the community, the San Diego Office will recommend counterintelligence action to be taken against these groups. Several copies of a Reader's Digest story called "SDS: Engineers of Campus Chaos" are available in the San Diego Office and Bureau authority will be requested, at the proper time, to mail copies of these pamphlets to individuals who appear in sympathy with SDS groups in order to weaken the influence of these groups.

The San Diego Office will recommend counterintelligence action to be taken against MDM, Green Machine, Duck Power and Attitude Check at such time as these groups appear to be successful in their organizing efforts.

Considerable investigation is being conducted in San Diego with regard to resistance and anti-draft groups, and at the present time a massive interview program is in progress to interview everyone connected in any way with the harboring of individuals absent without leave or in a deserter status, as well as the interview of any military man who has been in such a status who might be able to furnish information of an evidentiary nature. Individuals who are interviewed have been advised that the FBI is conducting an investigation with a view toward prosecuting individuals involved in conspiracy to harbor deserters, commit acts of sedition, or to violate the law in draft resistance work. This has had considerable affect on persons who were previously openly active in this type of activity.

C. TANGIBLE RESULTS

Due to the considerable harassment of the San Diego Street Journal, The Door, and the communes in which individuals who publish these papers live and resulting publicity by what is believed to be right wing organizations, most of the individuals involved in radical movements have ceased to operate effectively in San Diego.

It was noted recently that a sign had been posted on a GI coffee house called "The Waiting Room" in downtown San Diego stating, "Deserters and AWOLs not welcome!". It is believed that the posting of this sign by a group normally dedicated to assisting this type of an individual has been caused by active investigation in the case entitled, "THE RESISTANCE".

As the result of a rally held by the Green Machine in Oceanside, California, on 12/14/69, the City of Oceanside has mailed a bill for \$29,000 to [REDACTED] of San Diego.

[REDACTED] and [REDACTED] of the San Diego [REDACTED] This bill [REDACTED]

is for extra services provided by the city such as law enforcement officials, overtime pay, etcetera. The City of Oceanside at first refused a permit for the rally and parade, but were forced by court order to allow the rally and it is the position of the city that extra expenses for such a rally not budgeted must be taken care of by someone other than the taxpayer.

Members of the Green Machine have been living in a house in Vista, California, where they have had meetings in a large four car garage after failing to rent a place for a GI coffee house due to resistance by city officials. These individuals have now been ordered to vacate that residence and garage by the owner because of the considerable activity of law enforcement officers who are interested in meetings and gatherings at that residence.

San Diego will continue to be alert to situations which lend themselves to counterintelligence activity, however, it is felt that during times when activity by new left and radical groups are at a low ebb, excessive counterintelligence activities could create sympathy, financial support, and an aggravated attitude which might increase their activities.

## A. POTENTIAL COUNTERINTELLIGENCE ACTION

*[Handwritten: 12]*  
[REDACTED], San Diego [REDACTED] is being considered as a target for the Counterintelligence Program. [REDACTED] is becoming more and more active in various groups and demonstrations throughout the San Diego area. He appears to be vulnerable in several areas and immediately upon determining what counterintelligence action would be most effective, Bureau approval will be requested.

## B. PENDING COUNTERINTELLIGENCE ACTION

At the present time evaluations are still being made concerning the Bureau approved dissemination of the information that [REDACTED] was present during the arrests of two Selective Service violators. Tangible results thus far observed appear in the following section of this letter.

## C. TANGIBLE RESULTS

[REDACTED] and [REDACTED] both former members of Students for a Democratic Society (SDS) in San Diego, have reportedly moved to the Los Angeles area along with approximately four other individuals who formerly belonged to the same group. It is pointed out that the parents of both of these individuals were recipients of the Bureau approved letter concerning their activities. Although it cannot be definitely

established, it is felt that their reported move to the Los Angeles area, where their parents reside, could logically be the result of the exposure of their activities in the San Diego area.

On 2/14/69, information was received that marijuana and dangerous drugs were being utilized at 4029 Dove Street, a "crash pad" operated by Message Information Center (MIC). This information was furnished to the San Diego Police Department in view of the fact that it involved a violation of local law. The police department subsequently raided the house but were unable to effect any arrests or locate any drugs on that particular day. As a result, however, the owner of the house was confronted by unknown individuals and apprised of the activities which were being conducted at the house. As a result, the owner reportedly got "fed up", had the house completely demolished, and sold the property. Thus, the "crash pad" at 4029 Dove Street no longer exists.

[REDACTED] has reportedly been completely ostracized by members of MIC and all of the other individuals throughout the area who are associated with this and/or related groups. This seems to be occasioned by the fact that he is generally considered to be a police informant [REDACTED]  
[REDACTED]  
[REDACTED]

D. MISCELLANEOUS

No substantial amount of public source information appears to be available concerning [REDACTED] San Diego [REDACTED]. At this time it is not felt that any counterintelligence action can be taken against [REDACTED] without the possibility of jeopardizing the security of one or more informants. Therefore, no counterintelligence action is being requested against [REDACTED] at this time. His activities, however, are being followed closely and when an opportunity presents itself, appropriate counterintelligence action will be requested.

COINTELPRO - NEW LEFT

Reurairtel 2/3/69.

Reairtel requests authority to use [REDACTED] to spread suspicion that [REDACTED] is a police informant and through his assistance, two arrests have been made.

[REDACTED] Your communication also does not indicate whether such a procedure could jeopardize your source.

Prior to authorizing this action, San Diego should comment on the above.

COINTELPRO - NEW LEFT

For the information of the Bureau, [REDACTED] subject of San Diego file [REDACTED] is considered to be sufficiently active in the New Left Movement to be targeted in the counterintelligence program.

██████████ is active in the Message Information Center, particularly in the field of draft counselling. He has assisted in the organization of demonstrations for various reasons throughout the San Diego area.

On 1/27/69 [REDACTED], subject of San Diego file [REDACTED] was arrested by Bureau Agents at 4029 Dove Street. This address is that of a "crash pad" operated by Message Information Center. [REDACTED] was at the Dove Street address and left just prior to the arrival of the Bureau Agents who effected [REDACTED] arrest. (S)

On 1/31/69, [REDACTED] subject of San Diego file [REDACTED], was arrested at [REDACTED], La Jolla, California. Present at the time of [REDACTED]'s arrest was [REDACTED]. At this time [REDACTED] counselled [REDACTED] by telling him to remember that he should not tell the, referring to the Agents, anything. [REDACTED] also told him to remember his rights and said something to him concerning his conscientious objector status. He also advised [REDACTED] that their "spiritual consultant" would be down to the jail to talk with him and that he was to remember that they had 500 brothers in the San Francisco area.

It is felt that due to the fact that [REDACTED] was present shortly before or at the time of the arrest of two deserter fugitives, it might appear to his associates in Message Information Center and the New Left Movement that [REDACTED] could possibly be responsible for the arrest of these individuals.

[REDACTED]

It is felt that dissemination of information of this nature could logically result in [REDACTED] obtaining the reputation of being a police informer.

A report containing complete background information along with known activities of [REDACTED] has been prepared and should arrive at the Bureau on or before 1/1/69.

Re San Diego letter to the Bureau 10/30/68, and Chicago airtel to the Bureau 1/8/69.

A. POTENTIAL COUNTERINTELLIGENCE ACTION

*9/15*

[REDACTED], San Diego [REDACTED], is being considered for a target of the Counterintelligence Program. In this regard the Los Angeles Division has been requested to furnish San Diego all available public source information in that Division regarding this individual. Upon receipt of this information, appropriate action will be decided upon and Bureau approval will be requested.

[REDACTED] San Diego [REDACTED] a participant in Students for a Democratic Society (SDS) at San Diego State College, is also being considered for additional counterintelligence action.

At the present time the Message Information Center (MIC), San Diego 100-14427, appears to be operating a "crash pad" at 4029 Dove Street, San Diego, which seems to be under the direct control of [REDACTED] San Diego [REDACTED]. Attempts are being made to determine the identity of the owner of the residence at the above address, after which appropriate letters will be prepared and submitted to the Bureau for approval. These letters, it is anticipated, will be anonymously sent to the occupants of the houses surrounding the "crash pad" as well as to the owner of the house occupied. They will be in the nature of protesting the occupancy of the house for the purpose of harboring AWOL persons and related activities.

**B. PENDING COUNTERINTELLIGENCE ACTION**

Evaluation of the mailing of the authorized letters containing a copy of the "Teaspoon Door" is continuing. The only tangible results thus far determined appear in the following section of this letter.

The pamphlet prepared and forwarded by the Chicago Division has been placed anonymously on prominent bulletin boards at San Diego State College and University of California at San Diego. They have also been mailed anonymously to the leaders of SDS at San Diego including [REDACTED] San Diego [REDACTED] and [REDACTED], San Diego [REDACTED]. Copies have also been anonymously distributed to the office of "The Indicator", a radical student newspaper at University of California at San Diego. One copy has also been mailed to [REDACTED] from San Diego to his Chicago address.

**C. TANGIBLE RESULTS**

Although it cannot be definitely established, it is felt that as a result of the information furnished the St. Louis Division concerning [REDACTED] followed by an article subsequently appearing in "The Maneater", a weekly publication at the University of Missouri on [REDACTED] [REDACTED] cancelled his scheduled lecture at the University of Missouri on [REDACTED].

It is also noted that this information created a disturbance in the minds of some prominent individuals in the St. Louis Division. It is reported that these individuals are bringing this information concerning [REDACTED] to the attention of the State Legislators to point out to them the type of individuals considered for lecture engagements at the University of Missouri.

[REDACTED] San Diego [REDACTED] is no longer living with [REDACTED]. Although he has returned to San Diego State College, no information has been received indicating any current activity in SDS by [REDACTED] subsequent to the receipt of the letter mailed to his parents. It is too early to state that [REDACTED] has been neutralized concerning his activities, but, as of this date, he appears to be definitely curtailed in these activities.

As a sidelight to the authorized mailing of the letters containing the "Teaspoon Door" to the parents of four of the key activists in the San Diego area, the presence of the "Teaspoon Door" circulated on the San Diego State College campus has mushroomed into several complaints being received at a local television station. This television station has a program called "Action Report" during which complaints received from the general public are aired and appropriate action requested. This program in turn complained to the San Diego Police Department regarding the "Teaspoon Door" and this complaint ultimately resulted in the Editor of the "Teaspoon Door" being arrested on contributing and pornographic charges. It is felt that the fervor created concerning the "Teaspoon Door" may be directly related to the mailing of these papers due to the fact that the complaints received by the television station follow the receipt of the letters within two days.

D. MISCELLANEOUS

Information regarding the cohabitation of [redacted] and [redacted] was not furnished to the San Diego Police Department in view of the fact this condition no longer exists. [redacted] since his return from Christmas vacation, is reportedly living with another male student also from the Los Angeles area.

[redacted], upon whom counterintelligence action has previously been requested, has now made a complete reversal in his radical activities. He is still under close scrutiny and, in the event that his new or subsequent activities are appropriate for counterintelligence action, an appropriate request will be submitted to the Bureau.

The New Haven Office has advised that no public source information concerning [redacted], son of [redacted] is available. Therefore, no dissemination of public source information to Assemblyman [redacted] is possible at this time.

NOTE:

By relets San Diego requested authority to make a fictitious mailing to the parents of [redacted] and [redacted]. This letter would point out that their son or daughter was active in SDS and that the group is basically a revolutionary organization, engages in pornography and openly advocates liberal love and sex. This letter would bear a fictitious name and Post Office box number which could not be traced. This letter is being authorized as it could possibly be useful if the parents of these individuals are not sympathetic to the New Left. San Deigo also recommended advising the San Diego Police Department of the illegal cohabitation of [redacted] and [redacted] in the hope that that latter agency would take action against them. All of the above are students at San Diego State College.

REC-111

Re Bureau letter to San Diego 11/14/68, and  
San Diego letter to the Bureau 10/31/68.

For the information of the Bureau, the name  
T. E. ELLIS is completely fictitious. The [redacted] and has  
absolutely no traceable connection to the FBI.

In paragraph 2, second sentence "college students"  
has been changed to "militant revolutionary." The fourth  
sentence of paragraph 2 has been terminated after the word  
"establishment" and the fifth sentence has been omitted.

The original information concerning the illegal  
cohabitation between [redacted] and [redacted] was  
received from [redacted] and, according to this informant,  
the situation which exists between [redacted] and [redacted] is  
common knowledge among the members of SDS at San Diego State  
College. It is not believed that the furnishing of this  
information to the police department would in any way jeopardize  
the informant.

In addition, when [redacted] was interviewed  
concerning the Chicago riots, he was located at the home  
of [redacted]. It was noted during attempts to locate  
[redacted] at this time that he has also listed his home  
address as being identical with the known address of [redacted].  
At the time of the interview, Agents observed  
both [redacted] and [redacted] at [redacted] residence and it appeared  
as though they were at that time living together.

Concerning the request for sending an anonymous  
letter to the parents of [redacted] this letter is presently  
being prepared and will be forwarded to the Bureau for

Authority to carry out the counterintelligence action suggested in relet is denied.

Bufiles contain no references to [REDACTED] and information set forth in relet fails to establish that he is a suitable target for counterintelligence action.

If [REDACTED] is of sufficient stature in the New Left movement to warrant counterintelligence action, he should be the subject of an investigation under the provisions of Section 87D, Manual of Instructions. Prior to giving further consideration to your request with regard to [REDACTED], you are instructed to furnish the Bureau with a current report on him as required by current Bureau instructions. At that time, you may resubmit your request if his importance to the New Left movement warrants such attention.

NOTE:

By relet, SD advised that [REDACTED] is extremely active in leading demonstration and related activities in the SD area. He is on the staff of an underground newspaper and is draft counselor for the Peace and Freedom Party. SD advised that [REDACTED] is concerned over being surveilled by the FBI and is of the opinion that his phone is tapped. SD suggested planting a crudely built simulated listening device on [REDACTED] front steps with the hope that such would strengthen his belief that his residence was being "bugged." SD further suggested that at this same time spot surveillances of [REDACTED] be conducted to give him the impression that his every move was being observed. Bureau indices are negative on [REDACTED]. Prior to authorizing any counterintelligence action against [REDACTED] an investigation should be conducted as provided by current Bureau regulations. This would be to determine his connection with the New Left.

DATE: 11/8/68

In connection with the above program, Bureau authority is requested for the following activity to be directed against [REDACTED] subject of San Diego file [REDACTED] is extremely active in leading demonstrations and related activities. He is also on the staff of the San Diego Free Press, a local underground newspaper. In addition, he is a "draft counsellor" for the Peace and Freedom Party.

[REDACTED] has reported that [REDACTED] is extremely concerned over being surveilled by the FBI and is of the opinion that his phone is being tapped, microphones are installed in his residence, and that his every move is being observed.

It is felt that a "small push in the right direction" would cause [REDACTED] to be so disturbed as to cause him to portray an individual with obvious paranoid tendencies. Once this becomes obvious, it is felt that such actions on his part would completely neutralize him in his several leadership capacities.

As a result, the approval of the following is requested:

- (1) Construct a dummy contraption out of an old bicycle claxon and a portion of an old transistor radio.
- (2) Under the cover of night, simply walk by or drive by [REDACTED] residence and drop the above apparatus near the front steps of [REDACTED] residence where he would be certain to find it.

The above mentioned device, although not resembling a "bug" in any manner, would cause sufficient doubts in [REDACTED] mind and undoubtedly subject him to additional concern. In the event he displayed the contraption to anyone, its crude construction would ultimately neutralize any allegation that it originated or is being utilized by the FBI. It is felt that the crude construction, if displayed to other individuals, would also cause serious doubts in the mind of [REDACTED] associates concerning [REDACTED] reports that he is being watched.

It is also felt that [REDACTED] would suffer additional ridicule at the hands of his peers in the event that he represents the device as being any type of a listening or bugging device.

Your son (daughter) has joined and is active in a New Left movement known as the Students for a Democratic Society (SDS). This organization is basically a college student group. It draws its supporters from a motley variety including beatniks, hippies, disenchanted intellectuals, young faculty members and other students on the campus. In addition, I am enclosing a copy of the "Teaspoon Door", which is widely read by SDS members, including your son (daughter). As you can see, it strongly attacks all of the democratic institutions and values which we cherish. It also indulges in pornography and openly advocates "liberal love and sex."

I cannot believe that you, as a parent, can condone this type of influence over your children in a state supported school. As for myself, I have written a strong letter of protest to MALCOM LOVE, President, San Diego State College, San Diego, California, and also to Dr. HARVEY J. The letter could be written from a rejected suitor.

B. PENDING COUNTERINTELLIGENCE ACTION

Consideration will be given to purchasing a subscription for the "Teaspoon Door" (local underground newspaper) for delivery to [REDACTED] at the Philosophy Department, University of California at San Diego (UCSD). It is felt that this could result in some embarrassment to [REDACTED] among his colleagues at UCSD. After receipt of several issues, recommendation will be submitted to the Bureau for approval to write an anonymous letter to the Chancellor at UCSD protesting [REDACTED] regular receipt of the publication. This letter could be written by the father of a coed at UCSD.

C. TANGIBLE RESULTS

Reprints of "Campus or Battleground?" were mailed to appropriate faculty and staff members of San Diego area colleges and universities. Impressions made on each recipient are of course difficult to assess at this time.

the organization advocated using sabotage and explosives, if necessary, to destroy the institutions of the United States, particularly educational institutions. The Students for a Democratic Society has clearly stated that the first step in destroying our democracy is to destroy our schools and institutions of higher learning.

It is within your power to help defeat the taking of this first step by outlawing this organization on your campus by revoking the charter of this organization on the San Diego State College campus and by denying the use of campus facilities to this organization. It is sincerely hoped that the Board of Trustees will act against this organization on a state-wide basis. There is no question whether the Board of Trustees has the power to take this action. The only question is "Does it have the courage?"

I do not feel that I should sign this letter because I have a son in attendance at San Diego State College and the attitude towards the Students for a Democratic Society on this campus has been so permissive that members of the organization, whom I consider to be irresponsible and dangerous revolutionaries, would not be above taking violent measures against my son.

Sincerely yours,

Dear Dr. Love:

I have shared with you the deep desire to protect the freedoms which have greatly contributed to the development of our democratic form of government in the world today, but we must agree that these freedoms cannot be unlimited. The libel laws, our nation's sedition statute, for example, express limitations which are necessary to prevent one man's or one group's freedoms from injuring others in our society.

More and more today we are assailed by anti-intellectual, simplistic sloganism which lifts all restrictions on freedom of expression and equates the incitement of destruction of democratic procedures and institutions with the plea for justice in our democracy.

In about 1965 there appeared on the scene in the U. S. a new organization, Students for a Democratic Society, which appeared to have as its goal the betterment of our educational institutions and a better communication between the students and the administration of these institutions. Many chapters of this organization obtained charters and were allowed to use campus facilities for their activities. We have observed changes in this organization. Former students no longer associated with any educational institution have stayed on in this organization, negating the "student" portion of the organization's name, and more and more, the organization has made its position clear as opposing traditional democratic processes, making a mockery of the "democratic" portion of the name.

The current character of this organization has now been fully revealed at its June 1968 national convention at Michigan State University, East Lansing, Michigan. At this meeting,

A. POTENTIAL COUNTERINTELLIGENCE ACTION

1. The Students for a Democratic Society (SDS)  
at San Diego State College sends its newsletter  
using a postal permit number assigned to the Wesley Foundation.  
Postal Inspector's Office, San Diego, California, should be  
advised so that appropriate action could be taken to  
investigate this matter further.

2. The underground newspaper "The Teaspoon" and  
"The Door" does not list members of its editorial  
staff in each weekly publication. Postal Inspectors should  
be contacted to determine whether a newspaper complies with  
the law if it fails to list names of its editorial staff and,  
if not, appropriate action should be taken to insure that this  
matter is thoroughly investigated by appropriate authorities.

B. PENDING COUNTERINTELLIGENCE ACTION

1. The SDS Chapter at San Diego State College

which it uses for its meetings and other functions. The owner  
of this house could be identified and an anonymous letter

2. A letter could be written to the Board of Regents and other officials at San Diego State College complaining that as a father of an SDS member it is resented that when his son was sent to college he was not more closely supervised and that he was allowed to attend anti-American meetings on college campus supported by taxpayers of the State of California, and that anti-American films were allowed to be shown at several weekly meetings of SDS on the campus. A copy of this letter could be sent to the News Editor, "San Diego Union" newspaper for possible publication in the "Letters to the Editor" column.

C. TANGIBLE RESULTS

There have been no tangible results that can be attributed to this Program to date. Originally counterintelligence action was contemplated against [REDACTED], a philosophy professor at University of California at San Diego and an internationally famous revolutionary leader who resides at San Diego, California. However, [REDACTED] recently received an extortion letter and has left town apparently because of fear for his life. It is recommended that no action be taken against [REDACTED] unless it is established that he will continue to reside in the San Diego area.

You are authorized to prepare and mail to the Board of Regents and other officials at San Diego State College the anonymous letter as described in referenced communication. Your letter should be written on locally obtained stationery not traceable to the Bureau or to the Government. When prepared forward a copy to the Bureau.

You should take all necessary steps to insure that the Bureau is not identified as the source of this material.

Any tangible results should be promptly furnished the Bureau.

With respect to your request for authority to identify the owner of the house which is being rented by Students for a Democratic Society (SDS), it is noted that this should normally be done during the routine investigation of SDS and is not properly a counterintelligence matter. You should, of course, identify the owner of the property. Thereafter, you should consider the mailing of an anonymous letter as outlined in relet. Before undertaking this action, submit your proposal and fully identify the owner of this building.

NOTE:

San Diego by relet reported SDS had rented a house in San Diego to serve as a meeting place and center of operations. It was recommended that the owner of the building be identified and that an anonymous letter be written to him purportedly from a neighbor complaining of the boisterous behavior at the house. This proposal has merit, but we should first identify the owner of the residence. Relet also recommends an anonymous letter be written to the Board of Regents and other officials

ReBullets to Albany 5/10/68 and 7/5/68.

In connection with the above Program in the San Diego Division, it is recommended that the following action be taken:

1. The Students for a Democratic Society (SDS) at San Diego State College has rented a house at 3446 Adams Street in San Diego to serve as their meeting place and center of operations in the San Diego area. This facility is called the Eugene V. Debs Memorial Hall. It is recommended that the owner of this building be identified and that an anonymous letter be written to him stating that as neighbors living in the vicinity of the facility we resent him renting his house to loud, boisterous types of college "kooks" who are conducting anti-American meetings in his house.

2. Informants have reported that anti-American movies have been shown on the campus of San Diego State College at the weekly meetings of SDS on several occasions. It is recommended that an anonymous letter be written to the Board of Regents and other officials at San Diego State College complaining that as a father of one of the people in the SDS Chapter at that college it is resented that his son is being shown anti-American movies and being taught anti-American things under the guise of a legitimate college activity at meetings held on the campus of a state college, and that it is further resented that when this son was sent to college to receive an education that this type of education is being afforded him at the expense of the taxpayers. SUBJECT: COUNTERINTELLIGENCE PROGRAM  
INTERNAL SECURITY  
DISRUPTION OF THE NEW LEFT

Re Bureau letter to Albany 5/23/68.

Pursuant to referenced Bureau letter, information is being set forth concerning the following categories:

1) False Allegations of Police Brutality

The San Diego Division has no instances on record concerning police-student encounters during demonstrations. During the limited number of previous demonstrations in the San Diego area, the students and participants have taken deliberate steps to avoid confrontation with police. Thus, there are no resulting allegations of police brutality by New Left students.

2) Immorality

Investigation in individual New Left cases has revealed a limited number of instances indicating that possible immorality involved.

In the case of [REDACTED] member of Students of the Independent Left (SIL) at University of California at San Diego (UCSD), investigation revealed that MOORE was evicted from the dormitory at UCSD for entertaining women in his room.

Separate investigative cases are open concerning two other SIL members at UCSD, [REDACTED] and [REDACTED]. Investigation in each of those cases has revealed that these two individuals, while not married, are residing together in La Jolla, California.

### 3) Action by College Administrators

There have been no instances of violent actions on the part of students on any campus in the San Diego Division. There have been no overt attempts by militant minority elements to take over or to disrupt college campuses in this Division. During the "Ten Days of Protest and Resistance, April 21-30, 1968" New Left students in the San Diego area decided against participation in the "International Student Strike" because they decided there was a general apathy and lack of enthusiasm and interest in this movement in the San Diego area.

San Diego college administrators have, however, as a general rule been rather permissive in allowing extra freedom to New Left groups. There is only one instance in which a college administration took a firm stand in not allowing an activity promoted by New Left students.

Communist Party member [REDACTED] of the Southern California District CP at Los Angeles, California, was invited by a group of students at Grossmont Junior College, San Diego, to speak to students and to participate in a debate with a member of the John Birch Society. College administrators ruled that [REDACTED] would not be permitted to speak. Students have filed a petition at San Diego, California, which is now in litigation. This petition seeks to over-rule the action of the college administrators and allow [REDACTED] to speak at Grossmont Junior College.

The San Diego Division is constantly on the alert for any information which will assist in embarrassing and exposing New Left activists. In future investigations of individual New Left activists, this Counterintelligence Program will be constantly kept in mind and investigation will be made with a view in mind to expose these individuals at every possible opportunity.

SUBJECT: COUNTER INTELLIGENCE PROGRAM  
INTERNAL SECURITY  
DISRUPTION OF THE NEW LEFT

ReBuairtel to Albany 5/10/68.

The San Diego Division has three organizations which are involved in New Left activities, Students for a Democratic Society (SDS), Students of the Independent Left (SIL) at University of California at San Diego, and The Resistance. In addition, there are numerous New Left activists who are unaffiliated with any organization.

Following is a list of potential counterintelligence action which could be effectively directed against New Left activists in the San Diego area:

(1) Expose the activities of these individuals to their employers, parents, school officials, and other appropriate individuals and organizations.

(2) When incidents arise which are potentially embarrassing to these activists, this information could be furnished to news media locally through reliable sources for publication. Copies of these news articles could then be sent to parents, employers, school officials or other appropriate parties.

(3) Subversive publications or other embarrassing paraphernalia could be mailed or delivered to professors who are faculty advisors to New Left organizations at the various colleges. This type of counterintelligence activity could also be directed against student activists at their places of employment, and could result in much embarrassment to them and exposure of their activities and interests.

(4) Where opportunities arise, a program of misinformation could be directed against New Left organizations and individuals so as to confuse them and disrupt their activities. For example, where events are planned, notification that the event had been postponed or cancelled could be given to New Left leaders and members.

(5) Under proper circumstances, New Left leaders and activists, with the cooperation of local police agencies, could be arrested for illegal activities, and thereafter could be exposed through reliable news media.

(6) Where warranted, a concentrated counterintelligence program could be directed against leading activists.

The San Diego Division believes that utilization of the above counterintelligence methods should result in exposure, disruption, and neutralization of the efforts of the New Left activists in the San Diego area.
